## Amplifying strength and dignity

One might think that part of the work we do is to give strength and dignity to those we work with as if it's something they don't have or have long lost. But that couldn't be further from the truth. We believe these traits are present in every person already. Besides, strength and dignity are not ours to give—they are things we can help uphold, affirm, and illuminate.

That's why we choose to amplify: to make stronger, larger, and greater. Through BEAM Kenya's scholarship program, we encourage the gifts and talents of each individual child fostered through education. Our counseling program strengthens the power and dignity that exists inside each person. With our psychosocial education program, we create more awareness and unite communities to use their voices to protect and advocate for children's rights.

It is with deep and heartfelt gratitude that we share with you snapshots of 2022 and what we look forward to doing together in 2023. Thank you for all you have done to walk alongside us to amplify the voices of children. Your continued financial partnership will give children and communities an even more powerful voice that will bring change and healing to their families and communities for generations.

Stronger together,  
The BEAM Team
